SKILLS

ReactJs • NodeJs • JavaScript
TypeScript • Redux • NextJs
Express • Docker • Microservices
MongoDB • PostgreSQL • DSA
Core Java • Git • GitHub
Linux • REST APIs • TestCafe

EDUCATION

MASTER OF COMPUTER APPLICATIONS
Artificial Intelligence
Jain (Deemed-to-be University)
Nov 2025 - Present | Bangalore, IN

BACHELOR OF COMPUTER APPLICATION
Bangalore North University
Govt. First Grade College for Boys
Cum. CGPA: 7.4 / 10.0
Sept 2022 | Kolar, IN

PROJECTS

NEXTJS DASHBOARD
Developed a dynamic dashboard using Next.js, leveraging Tailwind CSS for styling. Implemented user authentication with NextAuth and utilized PostgreSQL for database functionality. Deployed the project on Vercel for optimal performance.
Hosted: **nextjs-dashboard-nu-weld.vercel.app**

REACT MOVIES
Created a responsive movie application using React.js, incorporating Redux for state management. Styled the application using Tailwind CSS for a modern and sleek interface. Implemented features for browsing and managing movie data to enhance user experience.
Hosted: **charanreddy404-react-movies.netlify.app**

EXPERIENCE

SIMPPLR | Associate Software Engineer
May 2023 - Present | Remote, IN

- Backend engineer on the Recognition & Rewards team since Feb 2025, building NestJS and Fastify services on PostgreSQL in a TypeScript monorepo.
- Own ledger management on the rewards side; designed a safe, auditable way to allocate allowance points mid-cycle and distributed 111,000+ points across multiple customers.
- Designed and built the Tango gift-card availability webhook end to end, preventing redemptions from failing on out-of-stock items.
- Built core logic for the new Programs feature with Peer Awards — award, per-giver and total program limits with weekly, monthly and quarterly resets — and delivered a key milestone in 15 days, half the expected time.
- Shipped bulk points upload via CSV and editing recognition with points safely under concurrent edits; upgraded a service from Node.js 18 to 20 and fixed critical SonarQube findings.
- Merged 94+ PRs across Recognition, Rewards and Redemption with 80%+ code coverage, handled production support, and mentored two new backend engineers.
- Work across Kafka event streams, Redis caching, Prisma, Docker and Kubernetes deployments, with CI/CD on GitHub Actions and Jenkins.

EMOMENT.IN | Full Stack Developer
Oct 2022 - Feb 2023 | Remote, IN

- Despite facing challenges without senior guidance, I successfully navigated the complexities, acquiring proficiency in new technologies such as Node.js and SQL.
- My responsibilities included working on a project facilitating stock purchases using Solana cryptocurrency.
- I actively participated in both backend (Node.js) and frontend (React.js) development, resolving bugs, and implementing new features across various projects.

CODING NINJAS | Teaching Assistant at Coding Ninjas
May 2022 - Sep 2022 | Remote, IN

- I undertook an internship at Coding Ninjas as a Teaching Assistant for Java DSA from May 2022 to September 2022, spanning 5 months.
- During this period, I mentored 969 students, addressed 1.5k queries, and achieved a rating of 4.77.

SANMOON SOFTWARE SOLUTIONS | Software Engineering Trainee
Jun 2017 - Apr 2018 | Bangalore, IN

- I gained foundational knowledge in web development.
- I created static websites for clients, and actively sought new project opportunities.

CERTIFICATIONS

2023	Udemy	The Complete JavaScript Course 2024
2023	Cutshort	Cutshort Certified Javascript - Advanced
2022	Coding Ninjas	Front End | Full Stack Web Development
2022	Coding Ninjas	Back End | Full Stack Web Development in Node.js
2022	Coding Ninjas	Advance Front-End Web Development with React
2022	Coding Ninjas	Introduction to Programming Using Java
2022	Coding Ninjas	Data Structures in JAVA
2023	HiCounselor	Build a URL Shortener from Scratch

ACHIEVEMENTS

SIMPPLR
Brilliant Beginner R&D Award (Apr 2025). FY2026 annual rating: Far Exceeds Expectations. 18 peer recognitions.

CODING NINJA
I have mentored 969 students, addressed 1520 doubts and queries on Java DSA, and achieved a rating of 4.77.
